

SAMPSON HOT.

He and Shafter Have a Clash of Authority.

WANTED TO SEIZE A VESSEL.

Shafter Told Him "Nit!" and That Ended It.

SANTIAGO DE CUBA, July 19.—(Special to the News.)—Sampson and Shafter have had a dispute resulting from a clash of authority. Sampson entered the harbor and claimed a prize vessel. Shafter made the rear-Admiral retire, saying that he had nothing to do with the seizure.

SOLDIERS POISONED.

They Eat Cabbage From a Corroded Vessel.

Fifty-five Affected and Fifteen Reported Dying.

CAMP ALGER, Va., July 19.—(Special to the News.)—Fifty-four soldiers were poisoned in camp today by eating cabbage. Fifteen of the unfortunate victims are dying. The cause of the wholesale poisoning was a corroded copper vessel in which the food of the mess was cooked.

MAD AS HORNETS.

Cubans Angry Because They Are Not Allowed to Loot Santiago.

WE MAY HAVE TO SPANK THEM YET.

WASHINGTON, D. C., July 19.—(Special to the News.)—Shafter reports that the Cubans are as mad as hornets because he will not let them loot or enter the town of Santiago. He says it is advisable that protection be offered the Spanish citizens under the circumstances.

IT'S ALL A BLUFF.

Blanco Talks Through His Hat and Says Santiago Will Be Retaken.

OUR BOYS READY TO CALL HIM.

HAVANA, via LONDON, July 19, (Special cable to the News.)—Captain General Blanco has cabled that he is about to take steps to recapture Santiago de Cuba. This is regarded as a bluff and if he attempts it he will find the American army ready to call him.

Raised "Old Glory."

GUANTANAMO, Cuba, July 19.—(Special to the News.)—The Americans today hoisted "Old Glory" over Cambrera today. Four thousand Spanish soldiers and one gunboat that was guarding the harbor surrendered to our troops.

Soldiers and Ammunition Surrendered.

WASHINGTON, D. C. July 19.—(Special to the News.)—General Shafter today reported to the War department that the Spanish commanders have surrendered to him ten million rounds of ammunition and twenty-two thousand seven hundred captured war.

Miles Gets Away.

WASHINGTON, D. C. July 19, (Special to the News.)—General Miles did not get away to Porto Rico until today.

GLORIOUS TROPHIES.

Two Battleships May Be Saved and Added to Our Navy.

SANTIAGO DE CUBA, July 18.—Capt. Cook, of the Brooklyn, is authority for the statement that the former Spanish flagship, the Maria Teresa, has floated off the reef on which she stranded, and that her heavy armament is practically uninjured. The captain also says this cruiser will almost surely be saved for an addition to the United States navy as a trophy of the glorious July 3.

The Cristobal Colon may also be saved though a good deal depends on the weather, which is very uncertain at this time of the year. A heavy storm might drive the cruiser so high on the coral reef that it would be impossible to dislodge her.

YANKEE BOYS.

Capture a Spanish Flag in a Fight.

WASHINGTON, July 18.—The first Spanish battle flag captured in Cuba by the American army reached the war department today. It was consigned to Gen. Corbin, who displayed it to view on the back of a chair in his office.

It was captured by Company B, First United States Infantry, regulars by the following detail: Corporals Newman and Boyle; Privates Keyser, Cooley and Houghstetter; J. J. Crittenden was captain of the company.

SPANISH GUNBOATS.

Bombarded and Stranded by American Warships.

LONDON, July 18.—A special dispatch from Havana, dated Monday, says: Seven American warships heavily bombarded Manzanillo this morning. Three steamers of the Mecedes line were set on fire. Several gunboats that were in the harbor issued for the defense of the town but were stranded. The result of the bombardment is not yet known here.

SUSPICIOUS.

Serges Refused to Allow Sick Soldiers to Land.

NEWPORT NEWS, Va., July 18.—The United States transport Seneca arrived in Hampton Roads this afternoon at 3 o'clock with sixty-nine sick and wounded soldiers from Santiago, in view of the prevalence of yellow fever at Santiago. Dr. Pettus of the United States quarantine office, refused to permit the sick and wounded men to be landed. It is understood that they will be taken to New York.

AN HONOR.

French Warship the First to Salute Old Glory in Cuba.

WASHINGTON, July 18.—A French warship will be the first foreign warship to salute the American flag flying on Cuban soil. Word has been received here that the French cruiser Rignat de Genouilly has been ordered to Santiago. The Rignat de Genouilly has arrived at Guantanamo, which is only a few miles from Santiago.

UNDER LEE.

Bryan and His Men Go to the Front.

OMAHA, Neb., July 18.—Col. Wm. J. Bryan's regiment has at last started for the front, and the late presidential candidate, in his soldier uniform, is now on the Burlington road, en route to Jacksonville, where Col. Bryan and his regiment will be under the command of Gen. Fitzhugh Lee.

MAY BE TROUBLE.

Treaty to Notify Troops of the Surrender.

GUANTANAMO, July 18.—The problem of notifying the Spanish troops of the fourth army corps outside of those which composed the garrison of Santiago de Cuba, of the surrender of Gen. Toral's forces is likely to cause some trouble.

The Spaniards at Guantanamo are evidently still ignorant of the surrender, and the Cubans, under Gen. Toral, have daily skirmishes with the defenders of the town, who are apparently trying to break through the lines and join the Spanish force at Santiago de Cuba.

Gen. Miles, who arrived here this afternoon, says that Gen. Toral will send officers to different garrisons in the province, notifying them of the surrender.

DEATH OF AN ESTIMABLE LADY.

Mrs. Elizabeth Ryan, an estimable Harrocks woman, died Friday night of consumption and rheumatism. Her internment took place in the Nichols cemetery. The deceased was 66 years of age.

PLEASED OUTING.

Mrs. A. A. Lathin and children, Mr. and Mrs. Kenneth Gregory are taking a week's outing at the famous Tar Springs.

STARVING PEOPLE.

Pen Picture of the Awful Misery of Spain.

Beggardom Assuming Proportions that Dismay Policy.

MORE WOMEN THAN MEN.

(From the London Telegraph.)

There are other layers of the population who are literally starving. Throughout Spain, for example, the school-masters—those whose mission it is to impart elementary instruction—are utterly underpaid on paper. In reality they are not paid at all. With the exception of two provinces, these wretched Spaniards "domestics" have not seen the color of the money owing to them for ten, twelve, or twenty months. In various parts of the country these teachers of the future generation have openly taken to begging in the streets. The soldiers who sacrificed their health and who lost their limbs in Cuba and the Philippines are still the unpaid creditors of the nation, while the money which the government expressly stipulated to pay them has been inside over to the rebels as an inducement to keep the peace. And everybody now knows how it was kept. A few days ago a Sergeant decorated for his bravery in the colonies died of bread, until the crowd gathered around him and took pity on the pariah. The widows and orphans of the thousands of brave youths who lost their lives in Cuba are dying slowly of starvation.

The proportion of women to men in Spain has become very unfavorable for the former, and in Madrid alone there are about 36,000 more women than men. And how can realize the meaning of this terrible fact. The soldiers in Cuba at this present moment have unfulfilled claims against the Government for six months' pay, and entertain vain hopes of ever receiving it.

Throughout the whole peninsula and in every branch of trade and manufacture the same dismal story is told. In Cadiz the population is fast to face with blank ruin. Ships laden with Spanish cargoes for the colonies are obliged to leave in that city, where trade and commerce are already dead. Barcelona, whose rapid growth and comparative wealth were dependent upon the markets of Cuba and the Philippines, is suffering incalculable losses. Works and factories there have been closed, thousands thrown out of employment, to whom forced idleness is equivalent to starvation and beggary is assuming proportions which dismay and baffles the police. To make matters worse, other occupations which were hitherto profitable are now suffering at the hand of nature, and everything seems hostile to Spain.

In Xerez, for instance, the ravages of the redoubtable phylloxera are such that in a couple of years more the native vineyards will have entirely disappeared, and sherry wine, in the good old sense of the word, will have become a thing of the past.

No wonder, if under such appalling conditions of existence, the people should exhibit no enthusiasm for the foreign armies of the United States, whom they are being trumpeted abroad by eloquent young men whose heads are filled with names from Greek and Roman history and whose ambition yearns for a place in the Cortes. I could give many startling instances of this realistic current among the people, especially in those who have to suffer the brunt of the war. But I have said enough to make it clear that Spanish politicians who have ruined their country are not the least of the people who only act to let live in peace.

CAT ASSAYED 918-31.

It hadn't been in a Old Mine for Nothing.

An amusing mining story comes from the Meckling Bird mine in the Warm Springs district near Butte, Mont. L. J. Ewen, who owns and works the mine, also owns a pet cat. This cat climbs up and down the shaft, through the mine, steps and ladders, and lives down there most of the time, being fed by the miners from the contents of their dinner pails.

A brilliant idea struck Brown the other day. He took the cat into the ore house and watched the hole as clean to the skin as it could possibly be "sifted." There is no doubt that the cat has the highest percentage, and the entire cat assayed 918.31 on an assay's scale. It is doubtful if any mine in the Rocky Mountain can assay better than 918.31 on the cat.

A Tip to Mothers.

The year of greatest growth in boys is the 17th. In girls the 14th. While girls reach their height in their 18th year, the boys are not until the 20th. Boys are stronger than girls from birth to the 17th year, then girls become superior physically to the 17th year, when the girls are again weaker and remain so. From the 17th to the 20th year, girls have very little gain in height, but lose weight, and from July to November they increase greatly in weight, but not in height.

A GREAT YEAR.

Some Facts About Our Immense Export Trade.

The record of the most remarkable year in our export trade has been completed by the Bureau of Statistics, so far as relates to the exportation of wheat, corn, and other breadstuffs, pork, lard and other provisions, cotton and mineral oils.

The cotton exported during the year increased from 3,000,750 pounds to 3,411,332,800 pounds, while the total value last year was \$230,880,971 and that for the year just ended \$233,907,477. The exportation of mineral oils increased from 973,414,446 gallons to 1,022,210,370 gallons, yet the total value in the year just ended was but \$84,171,000, against \$82,038,657 in the year just ended. A marked increase in quantity and decrease in export value.

In provisions, including beef, pork and lard, the value of exportations is greater than last year, being \$154,454,074 against \$137,138,084 last year.

The value of the wheat and flour exported during the year just ended amounted to \$212,841,626, a sum only surpassed in 1890 and 1892, the total in 1890 being \$225,579,502, and that of 1892 being \$238,761,416.

In corn the exports for the year exceed both in quantity and value those of any preceding year, the number of bushels (including corn meal) being 200,459,102 bushels, valued at \$73,002,007. The largest exportation of corn in any preceding year was 179,817,417 bushels in 1897, valued at \$43,088,213, while in no year prior to 1897 did the quantity of corn exported ever reach half that of the year just ended.

In oats, oatmeal and rye the exportation also averally increased, the total in each case for the year just ended being about double that of the preceding year.

MILITARY LIFE.

As Viewed by a Breckenridge Boy.

Who is in Camp on Chickamauga's Famous Battle Field.

ITS LIGHTS AND SHADOWS.

(Written for the News by Don Gray.)

CHICKAMAUGA, July 18.—This camp is interesting in more ways than one. It is the scene of the booming of the town of Lytle, Ga., and at the present time hundreds of temporary buildings are being erected on the hills and ridges. What was once a country road is now a narrow street, lined on both sides by stores of all classes, stands, museums and picture galleries.

Like the "White City" at Chicago, this temporary city has a prevailing color scheme and it would be appropriate to call the Yellow City, its being derived from the rough unpainted pine lumber out of which the buildings are constructed.

Lytle is on the western edge of the park and it would be difficult for one to conceive of the vast amount of business and the bustle that prevail here.

The military camp contains 60,000 soldiers. The regiments consist of twelve companies each company has three army wagons and eighteen mules to transport its equipment. Besides an enormous number of tents, thousands of cavalry and artillery horses are used and as can be judged this is a great stock market.

The park on which the soldiers are encamped is a military reservation owned by the government. It is being improved daily and car loads of marble, bronze and granite memorial stones and monuments arrive daily to be placed in the historic spot where the battle was fought. The place is being marked the place where the troops of each state held their positions in the great battle of Chickamauga. There is a vast number of monuments already placed and the work is not yet done.

The park has been but little effort made to take advantage of the natural scenery and beauty it is by landscape gardening and were it not for the monuments and the historic associations of the place, it would not be as interesting as the barren hills found in some parts of Breckenridge county.

THE BIGGEST HORSE.

Welched Almost as Much as a Greenland Whale.

The greatest size to which a horse has been known to grow to 29½ hands high. This is the record of a Clydesdale which was on exhibition in 1880 in New York. The animal weighed nearly 3,000 pounds and although only 5 years old measured 32 inches round the arm, 45 inches round the side or knee joint, 10 inches in girth, 14 inches round the hip and 11 feet 4 inches in height. It was perfectly proportioned, with a head 36 inches in length or 11 inches longer than an ordinary horse's head. A British dairy horse has been known to stand 6½ hands high and weighed nearly 2,000 pounds, while one of Woburn's manager at Oxford measured 17 hands 5½ inches high. It is said that a resident in Illinois has a horse that has never been broken in or shod. It weighs 2,500 pounds and 20 hands high.

AMERICAN CORN.

Is Beginning to Find a Good Foreign Market.

Exports of American corn for the year ending with the present month will amount to more than 200,000,000 bushels for which the farmers will have received upward of \$60,000,000. Sixty per cent. of this grain has been taken by England and Germany, the latter having already purchased more than 30,000,000 bushels as against less than 1,000,000 bushels in 1897. This development of the European market is a most encouraging one to the farmers of this country, and one from which they may confidently expect a steadily increasing profit on the products of their industry.—New York Mail and Express.

BELETED LOCALS.

This extreme warm weather has taken away all of the most energetic of the people. Charles Bohler has under construction a one story dwelling in the lower end of the city.

Miss Addie Louise Bahbage, who after several years in Louisville with her aunt, Mrs. D. W. Fairleigh, has returned home.

Wick Barber, of Short Creek, was in the city yesterday. He says, things are booming in this section and he farmers are exhibiting jubilation over their crops.

HEP HEP HEP.

There is a young man in Hardinburg whose health for the period of a week has been somewhat on the decline. A diagnosis of his case has been made by some of the town's most skillful and experienced physicians and they have arrived at the conclusion that the sudden change of his health was simply due to the hearing of a most charming visitor from town. His friends are exceedingly anxious for him to recover in time so that he may be partake of the Teacher's institute festival.

Davies County Farms
FOR SALE.

Superior Farms. The Bonapartes always were superstitious, especially the mother of Napoleon. She always had a presentiment that the rise and fall of her family would occur in the same century, that the glory which was prophesied for them would be followed by disaster. And the prediction was verified. She died in her eighty-seventh year, having lived long enough to see the downfall of all her children.

Napoleon I always feared Dec. 2 as an unlucky day, and it is related of him that before every important battle he would throw dice to ascertain if he were to lose or win. The "red man" whom he always saw going to battle with him was a deflation that cost him much suffering.—Toronto Saturday Night.

Not Worried About That.
Her Father.—Well, if you are determined to marry my daughter, I shall offer no objections, but before you take this irrevocable step I think it is only right to let you know that I have decided to leave all my money to educational and charitable institutions.

Gliss Baiter.—Oh, that's all right. I've got proof that you bet on a bicycle race once. It'll be easy enough to show that you're of unimpaired mind.—Chicago News.

DR. CALDWELL'S SYRUP OF PEPIN CURES INDIGESTION.

It is a fact, a young man of extravagant tastes. "Yes," the daughter admitted, "he wants me for a wife."—Cincinnati Enquirer.

The largest coffee plantation in Brazil and perhaps in the world is the DuPont plantation, established by a Frenchman in the state of Minas Geraes. The number of coffee plants in 1900 was 4,716,000.

The first sermon in Maine was delivered at Monksburg Aug. 9, 1607.

A Good Memory
Often saves money and also good health. If you are troubled with constipation, indigestion or any form of stomach trouble remember to take home a bottle of Dr. Caldwell's Syrup of Pepin. It will be restored to you. Trial size 10c (10 doses) 50c large size 50c and \$1.00 of Chas. C. Martin.

Pleading to the State.
"So far as I know," said the doctor in answer to a question, "the shortest word of four syllables is 'Ochloa.'"

"Well," observed the professor, removing his cigar from his mouth a moment, "it's the same word as regards the office. The Union always gets there with fewer letters than anybody else."—Chicago Tribune.

The Cuban question and political issues sink into indifference with the man who smokes from pipe. What he most desires, is relief. DeWitt's Witch Hazel Salve cures piles.—Short & Haynes.

Up-to-Date Merchant

Adopts up-to-date methods in conducting his business. This is an era in which printing is largely used to facilitate and systematize business. It is better for a merchant to make use of material that is artistically printed than the kind that is an eyesore.

Get Good Printing Done

At our Job Printing office. We have plenty of type, fine job presses and some of the best and most experienced printers in the State. This combination will produce good results.

OUR PRICES ARE REASONABLE. . . .

In fact they are lower than most places as we do not have high rent, taxes and insurance to pay, and this amounts to a neat sum that is saved to our patrons.
